## JO HASSAN IS A VITALITY EXPERT

At least 1 in 5 Australians experience mental illness each year, and from her own research Jo has found that 10% of business owners are working > 100 hours a week and 5% are working > 120 hours a week.

**Jo is that rare speaker at the intersection of business & mental health.**

Jo has seen first hand how small business owners are feeling overwhelm and can't remember when they last had family time, a holiday or even a day off when they didn't think about their business.

How they have overload trying to be and do everything for everyone, are working too many hours on too many different aspects of their business and feel like they have their business whirling around in their head 24 hours a day.

**If you need a keynote speaker, conference breakout session, workshop or a full coaching program, Jo can take your audience on a journey to increase their VITALITY.**

## LEADING A HIGH PERFORMANCE TEAM

Being a strategic leader includes having balance in life and a strategic plan for success. Strategic plans don't just exist in a vacuum though.
